ENVIROSHIELD PAINT

21st century technology

EnviroShield Paint Finish is the 'ultimate' in paintwork protection and preservation. It's designed to repel dirt and grime whilst still allowing the paintwork to breathe.

It's dynamics help keep damaging environmental and organic contaminants from attacking your vehicles paintwork, specifically bird droppings, tree sap, road grease, oil and even acid rain.

- Provides the 'ultimate' in high gloss protective coating
- Outstanding stain resistance against environmental and organic contaminants
- EnviroShield is highly durable, hard, long lasting finish
- Unlike conventional paint sealants and polishes, EnviroShield doesn't form an airtight barrier over the vehicles paintwork, allowing it to breathe
- Contains patented biodegradable components (not soluble in water)

And how to keep that long lasting shine?

To ensure a great looking finish that lasts and lasts, simply wash your vehicle at regular intervals with EnviroShield's Wash Renewer Concentrate, and you'll be assured of keeping that showroom shine!
